

CHANGES TO THE KIWISAVER HOMESTART GRANT

This factsheet tells you about changes to the KiwiSaver HomeStart grant that took effect on 1 August 2016. The key changes are as outlined below.

INCOME CAPS:

The existing income cap limits of \$80,000 for one buyer and \$120,000 for two or more buyers are to be increased to \$85,000 and \$130,000 respectively. These caps are based on income earned in the previous 12 month period before tax.

HOUSE PRICE CAPS:

The existing house price caps will be increased by \$50,000 to the new levels of \$400,000, \$500,000 and \$600,000. (See table below for details) Additionally, these house price caps are to be used exclusively for existing/older properties.

Price caps have also been added for new build properties. These caps are set at \$450,000, \$550,000 and \$650,000. (See table below for details)

PREVIOUS HOME OWNERS:

For the assessment of previous home owners, the realisable assets test will be based on the house price cap for existing/older properties, not the new properties caps.
