Hi again

As discussed, could you please confirm what is included in the remediation work. Also could we get some examples of what work might be done on a property that is at the lower end of the range, in the middle and at the top end.

Can you also check to see if there is a central record for testing - it seems there are two lots of cost associated with methamphetamine contamination (remediation and testing) so it would be good to get an understanding of this also.

Thanks
Megan

Hello

Quick follow up, so if retesting and reinstatement are not included in the cost of remediation what is included? Is the cost of demolition included?

Also what is meant by reinstatement of the property after decontamination.

Thanks
Megan
