Hello

Can you please get me a couple of quick follow ups on methamphetamine:

- How many houses have been demolish due to contamination
- What can be said about HNZ policy review (due for early 2016) and what may be included in this – Greg mentioned to the office that there is some consideration being given to testing all properties when vacated and investing in the technology and expertise to do this – is there anything that can be said about this publicly.
- How long does it take, on average to reinstate a property

Laura/Tony was the cost of reinstatement including demolition if necessary – I know we talked about this Tony but can't remember.

If possible could I get so quick lines on the points above today.

Thanks
Megan
