Hi team

Can you please look into the below today – She says she and her family are feeling sick and suspect it is from meth contamination of her property.

Can you please update me on this tenant, and if she has previously contacted us with her concerns? If so, what actions have we taken?

Thank you
Alicia

Hello can you let him know, that i had a drug test today and it showed traces of meth, so its been sent to the lab for more accurate testing.

If its positive i will get my son tested as well, because he isnt well either. This meth is so serious, well i was being tested the nurse told me that everyday people are being tested at that factors and all the tests come back postive..

Then i will get housing nz to test the house, we are very sick but nothing is showing in blood tests..

Please ask John Key to get child youth an families to have there own doctors to track an trace all this bad illness. Otherwise one day in the near future Auckland will have a huge problem.

An will child youth an families pay for all my costs as i wouldnt have this problem if it wasnt for thrm saying there kids are safe from meth. They are not an they need to stop telling people, because i have had so many doctors look at me now, that say they dont know ehats wrong... so how can child youth an families one nurse know whats wrong with those kids..?

On behalf of the Prime Minister, Rt Hon John Key, thank you for your email. The fact that you have taken the time to write is appreciated.

While the Prime Minister considers all correspondence to be important, if you are writing to express a personal view, your opinion will be noted but a response beyond this acknowledgement may not necessarily be sent.

Yours sincerely

The Office of the Prime Minister
