Hi

Looking at HNZ's compensation applications in 2015/16, which include those made in relation to meth contamination, where the decision has been received we have 197 cases where damages have been awarded (total of \$1.09 million) versus only 18 that were dismissed.

Hello - can't ring as my phone's being repaired - but just wondering if you're aware of any examples of this ever occurring? If so, how many?

Hi

The story seems to be – if HNZ is getting it wrong with meth-testing

<http://www.radionz.co.nz/news/national/310376/housing-nz-loses-meth-contamination-cases>

And kids are being taken away from parents by CYF on the strength of wrong information from HNZ, then what are we going to do about it?
