

Meth guidelines and supporting collateral for HLP, CGH and Emergency Housing

- Page published: 02 May 2018
- Page updated: 02 May 2018

Business alert for all staff.

The Meth Project team has created and released specific meth guidelines and supporting collateral for the teams managing HLP, CGH and Emergency Housing properties.

The Guidelines complement and link back to the main meth process document CA-716 and draw out specific actions required when dealing with Private Owners, CGH Groups and Providers. New supporting letters and email templates have been uploaded respectively to OurSpace and Outlook Add-Ins for those teams to use.

Click here a list of all the new documents.

This release brings the Meth Project towards an end. Since mid-2015, project team members supported by SMEs from many parts of the business have worked together to develop and deliver meth policy, processes, collateral, system changes and reporting tools.

When our new Drug Policy is approved and released, all published meth documentation will be reviewed and progressively updated to reflect the new policy. More information about this will be provided in due course.

This business alert has been authorised by Monique Fouwler, SRO, Meth Project.

If you have any questions, please contact your manager. To access this or any other business alerts, go to the OurSpace homepage or visit the A-Z reference and view by topic.
